Caviar Shampoo, Conditioner and Supplemental Treatments

Luxury Ring Line with Complexe Caviar™ and Omega-3 & Omega-6

Just 2 Steps to a Luxurious Coat

1

SHAMPOO: Dilute 1 part shampoo to 3 parts water in a clean container. Wet the coat then apply shampoo. Soak for 5 full minutes. Rinse.

2

CONDITIONER: Dilute 1 part conditioner to 3 parts water in a clean container. Apply mask to coat. Soak for 5 full minutes. Rinse.

APPLYING SHAMPOO & CONDITIONER

For best results apply the shampoo & conditioner in the following order: 1. belly & chest 2. legs and feet 3. neck & face 4. back and bottom. Let soak for **5 full minutes**. These are the sebaceous areas where most dirt and toxins enter the pet's system.

About the Products & Benefits of Complexe Caviar™.

Although considered one of the greatest culinary delights, Caviar has also been used to make cosmetics since the early nineteenth century. The Caviar line contains Omega-3's, oligopeptides of a structural protein called ACTINA, and seaweed extracts from *Fucus vesiculosus*, to give new energy, elasticity, beauty and shine to the coat. The Caviar line is for every coat type.

For Exhibition: We recommend to start this treatment at least 45 days before the competition and repeat at least 3 times in combination with the other Caviar Line products for the best results in the ring.

Caviar Shampoo: The joint action of the extract of caviar combined with oligopeptides, vitamin F & Omega-3 that help make the hair very strong and compact. Product free of silicones. SLS FREE and EDTA FREE!

Caviar Conditioner: Created to help the hair to come back strong and look radiant and healthy. Rich in ingredients (Complexe Caviar™, oligopeptides and *Fucus vesiculosus* seaweed extracts) that soften the hair giving it strength and vitality. Omega-3's protect the surface from the stress and help maintain proper hydration.

Caviar Nutritive: Ultra-light cream with active ingredients Complexe Caviar™, oligopeptides and seaweed *Fucus vesiculosus* extract. Protects and gives the hair a regenerated, younger appearance. Omega-3's help to maintain proper hydration. Shake well and spray evenly before drying.

Caviar Luminance: Emphasizes the natural color and textures of hair. Omega-3 rich, gives brightness to the hair without weighing it down. Protects against moisture and eliminates frizz. Smooths the surface and enables more effective and painless brushing. Spray on dry coat about 18 inches away from the coat and brush.

Caviar 10 in 1: A concentration of spa therapies for the mantle, and a healthy surplus for the hair: antioxidant, protects from UVA & UVB rays and styling heat, antistatic, deep moisturizer, leaves hair soft, and gives shine. Mist directly on wet hair.

Frequently Asked Questions:

What breeds can I use this on? This product can be used on all breeds and coat types of dogs and cats.

Why do I have to bathe per your instructions? Since pets absorb dirt & toxins from the ground up into their sebaceous areas (tummy, feet, legs and other areas with less hair) it is important that the products are applied there first & allowed to soak for 5 min.

Why do I have to let the product soak for 5 full minutes? In order to allow the shampoo to remove the dirt, it takes 5 minutes for the shampoo molecule to attach to the dirt molecule so it will all rinse off. When bathed for the proper amount of time you shouldn't have to give a second back. Likewise, the conditioner should soak 5 full minutes so it can be absorbed into the hair and skin for best results.

Why do I have to use conditioner? It is important that you give back the oils, minerals and collagen that were washed away during the bathing process. For dry skin or flakes you may leave the mask on longer before rinsing for a deep intense treatment.
