Never put the product back in the original containers.

Avoid environmental dispersion. Wash the affected areas with water.

7 Handling and storage

7.1 Precaution for safe handling: Do not smoke, eat or drink in professional users area.

7.2 Condition for safe storage: Store original packaging in a dry place.

7.3 If products are used differently from the given instruction of use, apply the due safety and hygiene norms in force. In this case, the provider declines any responsibility for any kind of accident.

8 Worker protection / exposure control

8.1 Control parameters – general measures: no need of particular usage room

8.2 Exposure control

- **Respiratory protection:** Not necessary
- **Hand protection:** Not necessary for normal use. Anyway prolonged exposure or sensitization to products can require adequate protections.
- **Eye protection:** Not necessary for normal use. Anyway prolonged exposure or sensitization to products can require adequate protections.
- **Skin protection:** Not necessary for normal use. Anyway prolonged exposure or sensitization to products can require adequate protections.

9 Physical and Chemical Properties

General information:

- **Appearance:** liquid (visual examination)
- **Scent:** typical (olfactory examination)
- **Colour:** brown\green (visual examination)

10 Stability and reactivity

- **Reactivity:** no reaction danger in normal conditions
- **Chemical stability:** product is stable in normal storage and usage conditions

- **Possible dangerous reactions:** no predictable dangerous reaction in normal storage and usage conditions
- **Conditions to avoid:** avoid to leave the products near heat sources.
- **Incompatible materials to avoid:** in normal storage and usage conditions there are no acknowledged incompatible materials
- **Dangerous rotting products:** in normal storage and usage conditions there are no acknowledged dangerous rotting products

11 Toxicological information

If applied according to normal and predictable usage conditions, the product does not represent risks for final user.

12 Ecological information

Use the product according to normal working procedures and avoid dispersing it in the environment.

- **Eco-toxicity:** n.d.
- **Persistence and biodegradability:** n.d.
- **Bioaccumulation potential:** n.d.
- **Mobility:** n.d.
- **Other effects:** n.d.

13 About disposal

Apply the relevant regulation.

Packaging can be treated as solid household waste, if not prohibited by local authorities.

14 Information about transportation

- | | |
|-------------|---------------|
| ▪ adr | not dangerous |
| ▪ adnr | not dangerous |
| ▪ rid | not dangerous |
| ▪ imdg | not dangerous |
| ▪ icao/iata | not dangerous |

15 Information about regulation

Information on the label:

Composition, (INCI), PAO, instruction for use and all is required by the regulation in force.

Chemical substance inventory:

Being a product intended for final user, the producer is not required to issue and release the present safety sheet. This document has been issued according to explicit request from customer.
