

In recent years more and more dogs are found with allergy and sensitive skin problems. There is also a depletion of the fibre of the hair due to pollution, lack of regular bathing (or bathing with inadequate grooming products) and exposure to UV rays. The result: an irritated, fragile and worn out coat.

The Reconstructing Program represents the perfect blend of ingredients derived from nature and exclusive active ingredients formulated in state of the art high-tech laboratories, a blend that will ensure the health of the hair. All products are designed to be mixed together and created in such a way that they are easy to distinguish as each product is marked with a number that represents a phase of the mixing process.

**SLS
FREE**

The Reconstructing Program from the Mineral RED line is formulated using extremely gentle and skin-compatible surfactants. The absence of Sodium Lauryl Sulfate (SLES) reduces the aggressiveness of the shampoo on the skin and hair, respecting its natural beauty.

The use of low dermal impact preservatives of the latest generation reduces the risk of unwanted skin reactions such as irritation, itchiness and redness. The elimination of parabens and formaldehyde releasers gives products that can be used more safely, especially on dogs with sensitive skin.

All the products have been dermatologically tested to guarantee and respect the dog's coat and skin.

- ◆ We suggest that you wear the included apron before you begin mixing the products.

- ◆ The measuring cup can be useful in order to apply the correct doses needed.

The Reconstructing Program includes:

- ◆ 1 Gel -coat repair and reconstruction
- ◆ 1 Mousse -activating, enriching, and non-fixing
- ◆ 1 Oils Mix -protects, strengthens and defends coats
- ◆ 1 Sweet Orange Essential Oil
- ◆ 1 Rosemary Essential Oil
- ◆ 1 Bowl
- ◆ 1 Measuring cup
- ◆ 1 Spatula
- ◆ 1 Apron

Before you begin treatment please consult the chart below which provides indications on the amount of product appropriate to the size of the dog.

PLEASE NOTE: In addition to the size of the animal it is necessary to consider the amount of surface to be treated and then adjust the doses accordingly.

Dose chart

			
GEL PHASE 1	25-35 ml	75-100 ml	100-125 ml
+ MOUSSE PHASE 2	1-2 	3-4 	3-4 
+ OILS MIX PHASE 3	10 	15-20 	15-20 
+ ESSENTIAL OIL PHASE 4	3 	3 	3 

Treatment

How to put together the treatment:

- ◆ STEP 1
Pour **Gel -Phase 1**
into the bowl

- ◆ STEP 2
Add and mix the
Mousse -Phase 2

- ◆ STEP 4
Add and mix drops of **Essential Oil -Phase 4**
of your choice (Orange or Rosemary)
Chose the fragrance suitable for the coat type
(Orange or Rosemary)

- ◆ STEP 3
Add and mix the
Oils Mix -Phase 3

- ◆ STEP 5
After having added all the products together mix them thoroughly in the bowl using the spatula until you end up with a creamy smooth mixture

Please Note: the cosmetics included in the reconstruction program are not meant to be applied singularly but to be combined among themselves.

GEL - PHASE 1

Coat repair and reconstruction

A gelatin based cream with an acid PH enriched with nourishing active ingredients that provide a powerful reconstructing treatment.

Ginseng Extract: its revitalizing substances stimulate hair growth and trigger an invigorating and energizing action on the coat and the skin.

Tomato Extract: highly rich in vitamins and lycopene, a natural antioxidant that can protect cells from aging.

Yarrow Extract: with softening and protective properties that make the treatment highly delicate.

MOUSSE - PHASE 2

Activating, enriching & non-fixing

powerful restructuring foam enriched with Panthenol, a provitamin with moisturising, soothing and conditioning properties that preserves the coat's wellbeing leaving it strong and protected.

Panthenol: with its ability to fix water, it acts in a particularly beneficial way even to damaged, broken or dry hair. It penetrates inside the coat leaving a long-lasting effect of hydration and nourishment while repairing damage caused by atmospheric agents such as UV rays.

OILS MIX – PHASE 3

An oil mix that protects and restructures the coat

A perfect blend of oils and vitamins, ideal for the coat's protection. Thanks to Oils Mix, reborn hair is protected, reinforced and its structure acquires silkiness to the touch along with an unparalleled shine.

Royal Jelly: is a source of vitamin B. It is an excellent restorative agent and strengthener to the hair and stimulates growth.

Camellia Oil: contributes to cell regeneration slowing down the aging process of the skin and stimulates the strengthening of the coat.

Hemp Oil: In addition to carrying a high content of fatty acids such as Omega-3, Omega-6 and Vitamin E, it also gives elasticity and shine.

Argan Oil: strengthens the hair and protects it from damage caused by external agents and aging.

PHASE 4

Rosemary Essential Oil - Specially formulated for the coat

Gathered from the distilled leaves of the plant, Rosemary Essential Oil has a pleasant and refreshing scent. It is ideal for dry coats, reducing tangles and leaving the coat soft and easy to comb. It also has stimulating properties and strengthens the hair shaft and the skin. Regular use of Rosemary Essential Oil will help the coat to rediscover its natural beauty, leaving it velvety soft and silky smooth.

Sweet Orange Essential Oil - Specially formulated for the skin

Sweet Orange Essential Oil is gathered through the cold pressing or distillation of the outer skin of the plant that is nearly ripe. It is rich in sugars, Vitamin A and Vitamin B, and known for its stimulating, purifying and regenerating properties. It also tones and balances the skin. Sweet Orange Essential Oil fights against aging and leaves the coat full of elasticity.
