

Hair Regrowth/ Thickening Instructions

Iv SAN BERNARD^{USA}

This therapy is to stimulate hair regrowth or to thicken coat where there is no skin infection present. Scar tissue or dead hair follicles will not grow hair.

THERAPY

To quiet the skin and regrow the hair. No infection is present. Treat once per week until hair has grown back.

CLEANSING

In a mixing bowl whisk 1 part **Mineral H shampoo** with 3 parts water. Leave on for 5 min. Rinse until water runs clear.

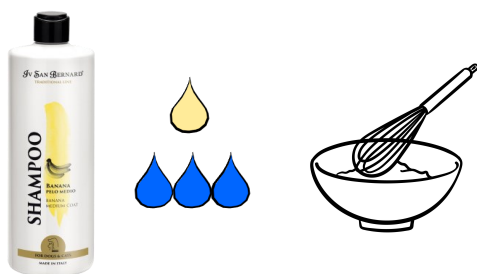

HYDRATION

In a mixing bowl whisk equal parts **pH Balance Conditioner** and **Orange PEK** with 3 parts water. Leave on for 5 minutes or longer. Rinse until water runs clear.

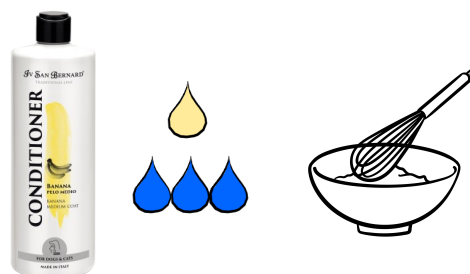

MAINTENANCE

Once the hair has grown back and there are no obvious skin or hair issues. Bathe every 3-4 weeks.
