

Soft Coated Wheaten Terrier Bathing Instructions

Soft Coated Wheaten Terriers are a long coated breed. Long coated dogs require extra collagen for hydration of the skin and coat. These products will hydrate your Wheaten's skin and coat and make it shine while leaving the texture of the coat intact. With regular bathing you will experience less matting and breakage and easier brush outs!

Iv San Bernard Product Recommendations

Basic Bath	Spa Bath	Luxury Bath
Traditional Line	Fruit of the Groomer Line	Luxury Line
Green Apple	Passion Fruit	Caviar

For best results, follow the Iv San Bernard bathing instructions sheet. Products should be diluted 1 part product to 3 parts water and allowed to sit on the dog for a full 5 mins before rinsing.

Looking to prevent extra breakage and matting of your Wheaten's coat or grow that extra bit of length? Try these additional products!

Orange PEK Conditioner – Add this in with your conditioner to strengthen the hair and prevent breakage. For assistance with dematting and that luxury experience, pair this with our Close – Open – Close technique!

H270 Spray – This deep penetrating, hydrating spray is a must for any Wheaten owner! It contains Jojoba oil, Avocado oil, and Bamboo extracts that are ideal for detangling and shine. This versatile spray can even be used as a scissoring spray during grooming!

Caviar 10 in 1 Spray – This spray lives up to its name in that it really is 10 products in 1. Use it for UVA/UVB protection, protection from styling heat, anti-static, extra shine and more! This is especially great for preventing sun bleaching which will damage and dull the coat.

WHY CONDITION? Conditioning is a crucial part of bathing for ALL dogs. Shampoo, no matter how gentle, is designed to strip the skin and coat of dirt and grime, as well as the natural oils that protect the skin and coat. This makes replacing that protection a necessity. The conditioners recommended here are designed specifically for your dog's coat type to give them everything their skin and coat needs without weighing the coat down or effecting its natural texture.
