

Routine Bathing: Traditional Line

Maintenance bathing and hydrating for pets with healthy coats using the traditional line products.
Lemon- Short Coats **Banana-** Medium Coats and most cats **Green Apple-** Long Coats

STEP 1: Cleanse

In a mixing bowl, froth 1 part shampoo with 3 parts water. Amount varies by size of pet.

Apply the shampoo: 1. face & head 2. Neck & Chest 3. Bottom & belly 4. Feet 5. Legs 6. Back
Let soak for **5 full minutes**. These are the sebaceous areas where most of the toxins enter the pet's system.

Rinse well until the water runs clear. Do one final rinse between the toes and foot pads for optimal results.

STEP 2: Hydrate

In a mixing bowl, froth 1 part conditioner with 3 parts water. Amount varies by size of pet. Skin supplements (if needed) should be added at this stage, if needed - see below. For better frothing, add our Pek conditioner to this step.

Apply the conditioner 1. face & head 2. Neck & Chest 3. Bottom & belly 4. Feet 5. Legs 6. Back
Let soak for **5 full minutes**. This will add the oils/ sebum back into the sebaceous areas to help protect areas where toxins enter the pet's system.

Rinse well until the water runs clear. Do one final rinse between the toes and foot pads for optimal results.

Supplements

During the Hydration Step you may add any or all of the below supplements based on the pet's individual needs.

PEK

Collagen based product that helps hold hydration and aids in detangling. Great for long and medium coated pets. Froth in 1-2 pumps to hydration step depending on size of pet.

ARGAN OIL

Anti-oxidant, nourishing food that feeds the skin. Absorbs quickly. Add 3-6 drops to hydration step.

GINKGO OIL

Helps regulate sebum production, is anti-bacterial and anti-inflammatory. Can add 6-8 drops to hydration step.

OZONIZED (O₃) OLIVE OIL

Anti-bacterial, anti-fungal and anti-inflammatory properties. Can add 6-8 drops to hydration step.
