

BATHING INSTRUCTIONS

Mixing Guide

WHY FROTHING?

- ✓ Creates more volume with less product
- ✓ Ensures even distribution
- ✓ Improves penetration to skin
- ✓ Reduces waste
- ✓ Saves time and money

DILUTION GUIDE

1 : 3

PART PRODUCT

PART WATER

Always mix vigorously
with 3x more water

HOW MUCH TO USE

SMALL DOGS

1/2 tsp
Short Coat

1 tsp
Long Coat

MEDIUM DOGS

1 tsp
Short Coat

2 tsp
Long Coat

LARGE DOGS

1 TBSP
Short Coat

2 TBSP
Long Coat

These are simple guidelines to get started. Use the appropriate amounts based on the coat and size of the pet you are working on.

HOW TO MIX

- 1 Add product to bowl
- 2 Add water (3x amount)
- 3 Use frother to whip into a thick foam
- 4 Thoroughly pre-wet the coat to the skin
- 5 Apply and work through to the skin
- 6 Let shampoos and conditioners sit for 5 mins (or more)
- 7 Rinse until water runs clear

PRO TIP

Shampoo cleans,
Conditioner restores

*Always follow with a
conditioning step*

Apply products
to a pre-wet
coat in the
following order:

1. Head / Face
2. Neck / Chest
3. Rear / Belly
4. Feet
5. Legs
6. Back
